Re: Adam Webber

To Judge Dee Benson:

Independence Parts, LLC is the Machine Shop that manufactures 100% of their product for HK Parts.net. We have known and been doing business with Adam Webber for the last 17 years personally and have done business with him for the last 10 years. We met over a common interest in Hk style weapons and Adam's knowledge of these weapons has been a tremendous asset to our business. We work on a daily basis with Adam Webber and any incarceration on Mr. Webber would severely inhibit our business, resulting in layoffs and possibly complete closure of our business being that my wife also works in the business our entire family and the family of the other owners will be devastatingly affected.

I have been personal friends with Adam through this entire ordeal and have personally seen how his mistakes have affected his life and his family's lives, he is devastated that he has put his family and the entire legal system through this due to his mistakes. Adam is truly sorry for not exercising better judgment in his business dealings and has made major changes and now runs all business decisions by experts in the field so that he will never make these kinds of mistakes again.

Adam Webber is a good person, a great father and husband. These business mistakes have cost him a great deal of money, but as a close friend and business relation I have seen the personal toll that this has taken on him. He has made mistakes and is a sincere person who I feel deserves lenience in this case. As a small business owner myself it is very hard to almost impossible to keep up with all the daily changes in the laws regarding firearms and some of these laws are open to major interpretation, this can cause law abiding owners to make mistakes that are unintentional. I think Adam sees that now and I feel he now has experts to lean on to not have these issues occur again.

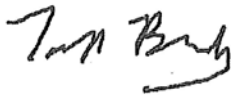

Adam has been and will continue to be an asset of his community, church and friends. My life personally is better for knowing him as long as I have. He is always there for us assisting in Production Design and for Manufacturing of our business and works hand in hand with my company.

Independence Parts, LLC

We would appreciate the court taking our company, my family along with everyone else into consideration during the sentencing phase. Adam and his business have truly helped over the years and have had a great impact on the success of our business.

Thank you for your time in hearing my story.

Regards,
